Online learning solutions that address key educational challenges

Our aim is to provide students with a personalised learning experience so they can fulfil their potential, and be part of establish classrooms that are engaging, intellectually inquisitive environments that unlock students' creativity and curiosity. We support schools in the successful delivery of their IB Diploma Programme, with a range of digital services ranging from structured content to courses fully taught by our experienced teachers.

We can help

1

Broaden your school's course offerings

2

Ease your teacher recruitment challenges

3

Save teachers' time on preparation whilst developing their skills in online learning methodologies

4

Support your schools in implementing digital strategies

Welcome to Global Online Learning

At Pamoja, we have spent over 10 years developing a global community of learners, expanding the curriculum of schools around the world while providing student choice and increasing opportunities for personalised learning.

During the COVID-19 pandemic, we have offered stability and continuity to our students using established pedagogical tools. With Pamoja Online Courses, students engage with their learning from anywhere in the world, with support from expert teachers adept in using remote learning technology to drive education.

With Pamoja Lesson Suite, you can bring our tailor-made online learning resources into your classroom, providing a framework for flexible learning. Whether you use our Pamoja Lesson Suite as a guide on the side, or as the backbone to your curriculum, we equip teachers to bring out the best in every learner.

We recognise that success beyond school depends on more than just academics. With a combination of live lessons, one-to-one tutorials and collaborative projects, our students have opportunities to develop their personal and social skills as they prepare to transition into early adulthood.

Inquiry-based

We support personalised learning by giving students control over the path their studies take.

Student-centred & Collaborative

We cultivate the development of social and communication skills through activities that challenge students to think critically, collaboratively and creatively.

Differentiated & Informed by Assessment

We provide teachers with the tools to engage in adaptive and individualised planning, maintaining balance between guiding the flow of learning and giving students the opportunity to self-direct.

We provide a broad selection of courses across the IB Diploma, open to students who attend an IB World School. Our Online Courses cover the same course content and prepare students for the same assessments as traditional face-to-face courses.

Teacher Supported

We recruit experienced teachers and train them in online learning methodologies. Student engagement and activities are tracked by Pamoja teachers to provide support when needed.

Progress Monitoring

Schools designate a member of staff, known as a Site-based Coordinator, to be the first point of contact to keep track of student progress.

Integrated

Students use ManageBac to access their course material, their teachers with other students from around the world.

The benefits of Pamoja Online Courses

Pamoja Online Courses are designed to support schools to:

- ✓ Broaden their subject offering
- ✓ Ease challenges presented by teacher shortages
- ✓ Build flexibility in timetables
- ✓ Offer students practical experience in digital technologies

Pamoja Online Courses help students:

- ✓ Pursue a passion by choosing a subject they are most interested in
- ✓ Gain practical experience of collaborative tools and digital technologies that promote self-management, critical thinking, creativity and collaboration
- ✓ Join a community of over 4,700 IB Diploma students around the world, building essential collaboration skills

Amelia, Pamoja student

“The international focus of my Pamoja courses have provided me with a window to the world which allows me to see not only my community but also the rest of the world in a unique perspective.”

We take full responsibility for teaching

The role of a Pamoja Teacher is first and foremost to facilitate learning – not direct it. We are committed to doing more than supporting students in achieving good examination results. We are dedicated to developing students’ capacity as independent and collaborative learners. In order to achieve this goal, Pamoja teachers give students room to learn – and let go of some traditional face-to-face, teacher-directed student management strategies.

Together with ManageBac and Pamoja’s School Services team, we are dedicated to closely monitoring student progress and intervening when and where appropriate. Our teachers are trained in skilful student management that reinforces the student’s responsibility for learning and develops their independence from teacher-directed learning. Teachers support learning in the spirit of recognised education thought leaders such as Michael Fullan and John Hattie.

Our teachers are supported by:

**Subject specialist
Course Advisors**

**Academic Team for
administrative
oversight**

**Community and
Professional
Development Team**

Pamoja Online Course and ManageBac

All Pamoja students can now access their Pamoja Online Courses via ManageBac. We've worked hard to make the student experience better than ever and added useful new features for Pamoja Site-based Coordinators.

Seamless ManageBac Integration

Pamoja students and Site-based Coordinators can seamlessly switch between in-person school courses and Pamoja Online Courses with single sign-on.

Familiar look and feel for students

Students' familiar dashboard view shows their completion and academic progress at a glance, with a new weekly planner showing the week's lessons.

On-the-go course access

Students can access their courses on-the-go with the mobile-friendly view.

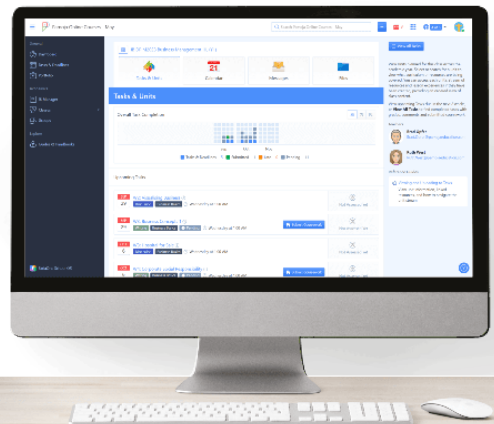

Everything in one place

Administrators have access to all student information, such as progress and attendance reports, all in one place.

Course request dashboard

View course requests and learning support notes on a single dashboard, and see course enrolment in real time.

IB Diploma Programme Online Courses

Pamoja is the only provider approved by the International Baccalaureate Organization to teach courses online for the IB Diploma and the IB Career-related Programmes. Courses are available to students taking the Diploma or the Career-related Programme at an IB World School.

Pamoja Lesson Suite provides teachers with a range of tailor-made resources to use in their classroom, including course content broken down into lessons, student assessment and monitoring tools. This solution saves teachers time on course preparation while developing skills in online learning methodologies.

Curriculum-aligned

Curriculum-aligned content built for online learning, originally designed for Pamoja Online Courses.

Turnkey Curriculum

A turnkey curriculum that is aligned to key syllabus topics and encompasses a complete collection of units, lessons and stream & resources.

Flexible & Customisable

Flexible and customisable unit and lesson plans to suit teaching and learning needs.

Global ResourceBank

Alignment with your ManageBac classes by seamlessly adding Pamoja Lesson Suite resources from the Global ResourceBank.

The benefits of Pamoja Lesson Suite

Pamoja Lesson Suite encourages students to:

- ✓ Collaborate with each other outside classroom hours to inspire teamwork and discussion.
- ✓ Learn through blended and flipped learning, allowing them to benefit from online and face-to-face teaching.
- ✓ Become independent learners and manage their own time – critical skills to develop for further education.

Pamoja Lesson Suite help teachers:

- ✓ Save time on course preparation and planning.
- ✓ Provide differentiated intervention at the point it is most needed by utilising student monitoring tools.
- ✓ Flip their classroom in a low-risk, non-disruptive way.

Pamoja Lesson Suite and ManageBac

As an IB World School and ManageBac user, you will be able to seamlessly add Pamoja Lesson Suite units, lessons and resources into your ManageBac classes via the Global ResourcesBank. You can deliver the units and lessons as they are or adapt and customise to suit your teaching and learning needs.

Seamless ManageBac Integration

Pamoja Online Courses are available for one-click registration via the IB Diploma Plan Worksheet on ManageBac.

KeyChat

Chat with your students and teachers directly within the Presentation Mode, form study groups and more!

Online Assessments & Exams with AssessPrep

Practice formative online assessments and take in-class exams online.

Project-Based Learning

With Project worksheets for each Subject, students can keep their Journal and Online collaborations documents in one-place.

Vantage Reader

Powerful document editing and annotation capabilities for Microsoft Office and Image formats.

Presentation & Study Mode Over Zoom

Coming Soon

Supporting both live online lessons over Zoom as well as blended learning.

Online Collaboration with built-in Google Doc

Work on Google Docs directly together with project groups, keeping everything in one place.

Integrated Portfolios for Internal Assessment

All submitted coursework is automatically saved into the student's ManageBac portfolio.

Organisation: Everything in Its Right Place

Students can browse their upcoming 2-week calendar from their Dashboard with Pamoja Online Course calendar fully integrated.

- Transport in plants: from soil to roots
- Transport in plants: from roots to shoot
- Transport in plants: from shoots to air
- Plant Adaptations
- Thymosin mutants (Photosynthesis)
- Plant growth
- Stomata
- Flowering
- Stomata: formation and leaf abscission
- WAX SYNTHESIS IN ARABIDOPSIS
- Plant diversity and soil

Plant Diversity

Lesson

Transport in plants: from shoots to air

Lesson

Each lesson covers the key topics in biology to support your understanding. The aim of each lesson is to provide you with the knowledge and skills to understand the topic. Each lesson is designed to be completed in 10-15 minutes. You can use the lessons to prepare for your exam or to learn more about the topic.

Leaf Structure and Transpiration

The diagram shows a cross-section of a leaf with various parts labeled. The upper surface is covered by a waxy cuticle. Below it is the palisade mesophyll, which contains chloroplasts. The lower surface has a spongy mesophyll and a network of stomata. The stomata are surrounded by guard cells. The diagram illustrates the path of water vapor as it moves from the stomata to the atmosphere, a process known as transpiration.

IB Diploma Programme Online Courses

Pamoja is the only provider approved by the International Baccalaureate Organization to teach courses online for the IB Diploma and the IB Career-related Programmes. Pamoja Lesson Suite is available to IB World Schools teaching the IB Diploma or Career-related Programme.
